SUMMARY

An Artificial Intelligence and Data Science undergraduate with a growing focus on web engineering and building reliable, user-focused applications. Comfortable working with Java, Python and core web technologies, and experienced in translating ideas into practical, working solutions through academic and personal projects. Approaches problems with clarity, patience, and curiosity, and values clean code, continuous learning, and teamwork. Actively seeking opportunities to contribute to a fast-paced engineering environment while strengthening real-world development skills.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Web Technologies: HTML, CSS, Js, React

Tools and Platforms: IBM SPSS, IBM Cognos, WatsonXStudio, Excel, Word, n8n, Cloudflare R2, RazorPay

PROJECTS

Smart Helmet

July 2024 - December 2024

Intelligent Rider Safety System

Patent Filed

- Led a team of four in designing a smart safety solution that integrates fall detection, GPS tracking, and automated emergency alert mechanisms.
- The system is aimed at enhancing rider safety by enabling rapid response during accidents through real-time location sharing and alert notifications.

InnerSpark

February 2026 - March 2026

Online course platform

Deployed at awarenessacademy.in

- Developed an online course platform featuring user authentication, course enrollment, content management, and interactive learning modules for a seamless end-to-end user experience.
- Built a scalable backend system with database integration, secure APIs, and dynamic course delivery, supporting efficient user management and future feature expansion.

EDUCATION

B.Tech - Artificial Intelligence and Data Science

M. Kumarasamy College of Engineering

July 2023 - July 2027

8.106 CGPA

Higher Secondary Certification

TNPL Public School, CBSE

July 2022 - July 2023

64.2

Secondary School Leaving Certification

TNPL Public School, CBSE

July 2020 - July 2021

87.8

EXPERIENCE

Full Stack Web Development with Automation

January 2026 - March 2026

Twins Consultancy

Intern – OnSite

- Completed a 44-day internship with a stipend of 7,000 working on full-stack development using HTML, CSS, JavaScript, Nodejs, Cloudflare R2 and MongoDB, along with API integration and automation workflows.
- Designed and deployed a course platform **awarnessacademy.in** with JWT-based authentication, RESTful APIs, database-driven course management, and dynamic content rendering, ensuring scalability, security, and seamless user experience.

Emerging Technologies (AI, Cloud)

June 2024 - July 2024

AICTE, IBM SkillsBuild

Intern – Remote

- Completed a 4-week internship focused on Artificial Intelligence and Cloud Computing using the IBM Cloud Platform.
- Engaged in structured learning modules, hands-on exercises, and project-based tasks to bridge the gap between academic knowledge and industry applications.
